## Ethan Yule

Ethan Yule is 17 and an aspiring musician who lives in Santa Clarita, California. He started in classical piano and continued through 7th grade, and although he had a great teacher, he grew tired of the perfectionist mindset of classical music. That's when he was exposed to Jazz. It was new, exciting, and most importantly, it encouraged him to make his own ideas on the fly. Unfortunately, he started jazz about a month before Covid lock downs and spent a couple of years learning Jazz through zoom. Now he is playing with other musicians and has even explored the digital side of music. Learning how to mix, master, and produce in various genres. Ethan desires to go into composition, making music for TV shows, video games, and maybe even movies.

## Special Thanks

Special thanks to his teacher, Amy Rowe, who persevered through many zoom lessons and for pushing him to where he is now. Thanks also to his parents, who keep him accountable and motivate him to continue pursuing Jazz.
